

DEV R B

+91 9344848182 | devbhooma@gmail.com
linkedin.com/in/devrb2003 | leetcode.com/u/dev_rb

SKILLS

Languages: Java, Python, JavaScript, SQL

Technologies & Tools: AWS, React, Spring Boot, Node.js, PySpark, ServiceNow, Databricks, PostgreSQL, MongoDB, Snowflake, Redis, Apache Kafka, Amazon SQS, Docker, Kubernetes.

WORK EXPERIENCE

Thoughtworks, Bangalore

Jan 2025 - Present

Software Developer - Data

- Developed and maintained a software inventory management solution that tracks software lifecycle status and proactively alerts stakeholders about upcoming End-of-Life (EOL) software, reducing compliance risks and preventing potential licensing penalties.
- Architected a resilient data processing framework in Matillion that captures errored and rejected records in dedicated recovery tables and automatically reprocesses them in subsequent executions, enhancing data reliability and minimizing manual intervention.
- Designed and implemented Power BI dashboards integrated with semantic models and LLM-based agents, while establishing automated data governance and observability frameworks to monitor completeness, correctness, and compliance metrics, enabling conversational analytics, improving trust in enterprise data assets, and accelerating root-cause analysis of data quality issues.
- Key tools: Python, PySpark, Databricks, Snowflake, Spring Boot, Soda.

Fourkites, Chennai

June 2023 - May 2024

Software Developer Intern

- Resolved 75+ critical issues for Procter & Gamble while acting as the primary customer-facing technical contact, strengthening client relationships and improving customer satisfaction through rapid issue resolution and proactive communication.
- Spearheaded the migration of platform services from AWS to Azure, implementing a multi-cloud architecture by modernizing storage and messaging components (S3 to Azure Blob Storage, SQS to Kafka), increasing platform flexibility and marketability across diverse cloud ecosystems. Led Azure parity efforts, gaining deep expertise in Azure services, microservices architecture, and messaging systems.
- Collaborated with Data Science teams to build data-driven analytics solutions for trend analysis and milestone forecasting, while creating comprehensive product documentation and developing an AI-assisted automation framework to streamline local setup and improve developer productivity.
- Key tools: Java, Spring Boot, PostgreSQL, Amazon SQS, Kafka, React, Docker, Kubernetes, Redis.

EDUCATION

Kongu Engineering College

2020 - 2024

Bachelor of Engineering - Computer Science Engineering | CGPA: 9.06

Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, React, Node.js, MongoDB.

ACHIEVEMENTS

- Solved 800+ problems on LeetCode.
- Received 'Top Performer' recognition from management for outstanding contributions and customer impact in 2025.
- Achieved All India Rank 56 in the National Engineering Olympiad.
- Published two IEEE conference papers: "COVID-19 Sentiment Analysis Using Deep Learning" and "Comparison of Optimizers for Lung Cancer Classification Using Deep Convolutional Neural Networks."
